

Chandrakanth Mane

Full Stack Developer, Pune, India

+91-7981470160

chandrakanthmane84@gmail.com

Portfolio - <https://chandrakanthmane.github.io>

PROFESSIONAL SUMMARY :

Full Stack Developer with **4+** years of experience in Angular, React, Node.js, Cordova and JavaScript development. Proven track record of developing scalable web applications, leading cross-functional teams, and implementing best practices resulting in **30%** improvement in user engagement. Expertise in front-end development, back-end API development, database management, and cloud deployment. Strong background in Agile methodologies, code reviews, and mentoring junior developers.

TECHNICAL SKILLS :

- **Programming Languages:** JavaScript, TypeScript, HTML5, CSS3, SASS, SQL
- **Frontend Frameworks:** Angular, React, Bootstrap, Angular Material , Cordova
- **Backend Technologies:** Node.js, Express.js, RESTful APIs, JWT Authentication
- **Databases:** Postgres, MySQL, JSON
- **Cloud & DevOps:** AWS, Azure, CI/CD, Git, Bitbucket, Docker
- **Development Tools:** VSCode, Chrome DevTools, GitHub, Figma, Jira, NPM
- **Libraries & APIs:** jQuery, AJAX, NgRx, Chart.js, D3.js, Highcharts, WebCrypto
- **Testing & Quality:** Unit Testing, Code Reviews, Debugging, Performance Optimization
- **Methodologies:** Agile, Scrum, OOPS, Data Structures, Algorithms

PROFESSIONAL EXPERIENCE :

Full Stack Developer

Reput.AI, Pune, India

November 2024 - Present

- Developed end-to-end scalable web applications using **Angular 18, Node.js, Express.js**
- Led team of **20 developers** managing task delegation, code reviews, and project timelines
- **Mentored** junior developers and interns resulting in **75%** skill improvement based on assessments
- Designed and implemented **RESTful APIs** improving backend performance by **25%**
- Integrated advanced Angular features including **lazy loading, interceptors**, and **state management** reducing load times by **40%**
- Implemented **CI/CD pipelines** on AWS infrastructure for development, SIT, and production environments
- Conducted code reviews and established best practices reducing production bugs by **30%**
- Collaborated with product managers, designers, and QA teams to deliver business requirements
- Contributed to new feature rollouts increasing platform adoption by **20%**

Angular Developer

Tata Consultancy Services, Hyderabad ,India

April 2021 – August 2023

- Developed responsive web applications using **Angular, TypeScript, HTML5, CSS3, Cordova** and **Bootstrap**
- Integrated **RESTful APIs** ensuring seamless communication between frontend and backend systems
- Implemented third-party libraries and **APIs** accelerating development timelines
- Participated in **Agile** development processes including **sprint** planning, **daily standups**, and retrospectives
- **Mentored** junior developers on Angular best practices and coding standards
- Optimized application performance implementing **lazy loading** reducing load times by **30%**
- Provided technical support and troubleshooting achieving **95%** issue resolution rate
- Performed code reviews ensuring adherence to coding standards and reducing bugs by **20%**
- Collaborated with cross-functional teams including UX/UI designers and backend developers

EDUCATION :

Bachelor of Technology - Electronics and Communication Engineering

Bharath University, Chennai, India

2016 - 2020

CGPA : **8.7/10 (First Class)**

PROJECTS :

Reput-Tracing (Supply Chain Management System)

Technologies: Angular 18, Node.js, Express.js, TypeScript, Bootstrap, SCSS, Highcharts, WebCrypto, JWT Duration: 2024 - Present

- Developed comprehensive supplier chain management system improving system efficiency by **40%**
- Implemented interactive **world map** and **network visualization** using **Highcharts** increasing user engagement by **30%**
- Built **organizational chart visualization** showing supplier relationships across **tier levels**
- Integrated **WebCrypto** library for **API encryption and decryption** ensuring **100% security compliance**
- Developed **JWT token authentication** reducing unauthorized access by **50%**
- Created **multi-document upload** feature with progress tracking reducing processing time by **30%**
- Designed **dynamic questionnaire templates** with API integration improving user efficiency by **25%**
- Built user **registration, invitation, and password recovery** pages using reactive forms
- Implemented **evidence preview** and management system for **admin users**

Digital Product Passport (DPP) System

Technologies: Angular 18, Node.js, TypeScript, Angular Material, SCSS
Duration: 2024 - Present

- Developed Digital Product Passport system **for fashion, footwear, cosmetics, food, and diamond** industries
- Created industry-specific data entry screens with **custom validations** improving data accuracy by **35%**
- Implemented **calculation modules** for sustainability metrics and carbon footprint assessment
- Built product comparison features enhancing **decision-making** capabilities by **40%**
- Integrated **real-time data validation** reducing data entry errors by **45%**
- Designed responsive UI components ensuring **95%** cross-browser compatibility

Carbon Emission Tracking System

Technologies: Angular 18, Node.js, Chart.js, D3.js, TypeScript
Duration: 2024 - Present

- Architected **carbon emission** tracking application for **Scope 1, Scope 2, and Scope 3** emissions monitoring
- Created interactive **dashboard** with **dynamic graphs** for electricity, transportation, and supply chain emissions
- Implemented calculation screens using industry-standard **emission factors** reducing calculation errors by **40%**
- Developed customizable reporting modules supporting regulatory compliance requirements
- Built data **filtering** and **comparison** features enabling year-over-year analysis
- Integrated automated alert systems for emission threshold monitoring improving response times by **30%**

Dynamic Report Generator

Technologies: Angular 18, Node.js, Express.js, TypeScript, Third-party APIs
Duration: 2024 - Present

- Developed report generation platform with **customizable templates** and dynamic **content management**
- Integrated **spell check, grammar validation, and AI-powered rephrasing** capabilities improving content quality by **45%**
- Built template management system with functionality for **charts, tables, and multimedia content**
- Implemented **hierarchical section** architecture with custom styling options
- Created **image upload system** with compression and format conversion optimizing storage by **60%**
- Developed **Word document export** functionality with preserved formatting achieving **99%** conversion fidelity
- Built user authentication and role-based access control with **audit trails**

PROJECTS :

Banking Danamon Projects

Technologies: Angular 8 & 11, Cordova, TypeScript, Bootstrap, RESTful APIs, Git, Bitbucket
Duration: 2022 - 2023

Multi-Currency Account System

- Enabled **online foreign transactions** increasing transaction volume by **50%**
- Integrated **ExchangeRate-API** for real-time **currency exchange** rates
- Implemented responsive UI with **Bootstrap** improving user experience

Online Account Registration System

- Developed **video banking, customer journey mapping,** and **referral code** features
- Utilized **Angular lifecycle hooks** for UI updates and change detection
- Implemented version control using **Git** and **Bitbucket** reducing deployment issues by **40%**

StrykerCIAM - Medical Application

Technologies: React, JavaScript, TypeScript, CSS3, React Router , Cordova
Duration: 2021 - 2022

- Developed medical application with **registration, dashboard,** and **multi-language support**
- Created reusable React components improving development efficiency by **25%**
- Implemented **responsive design** using **CSS Flexbox** and **media queries** increasing mobile engagement by **20%**
- Enhanced application performance using **JavaScript** and **TypeScript**

CERTIFICATIONS :

- [Angular Essentials \(Angular 2+ with Typescript\) - Udemy](#)
- [Responsive Web Design – FreeCodeCamp](#)

ACHIEVEMENTS :

- **Developer of the Quarter** Award for exceptional performance and project contributions
- Led successful project deliveries resulting in **30%** improvement in user satisfaction
- **Mentored 15+** junior developers and interns with measurable skill improvements
